MICROBIOLOGICAL TEST REPORT
RE: SAMPLE EVALUATION

The following sample was received on 23 February 2018 for microbiological evaluation only.

Sample	Description
SS-204-1	Prego spice

Testing commenced on 28 February 2018 and was completed on 02 March 2018.

METHODS

The following standard FCS method was used.

Tests marked (*) "Not SANAS accredited" in this report are not included in the SANAS Schedule of Accreditation for this laboratory.

TM051 VIDAS *Listeria monocytogenes* II (LMO2)

The results in this report reflect only the analysis of the above-mentioned samples in the condition they were received (comments/ notes will be made in the event that samples deviate from the norm or any visual defects are noted). Only the results of the indicated methods are accredited, the comments and interpretations of the above mentioned results fall outside the scope of accreditation. This report may not be reproduced except in full. Extracts can be reproduced only with the express written permission of an FCS signatory. Method validations performed, prove that the results obtained and recorded in this report, fall within a 95% confidence level at k=2.

"QUALITY ASSURANCE IS BUSINESS INSURANCE"
